ERPAdvance Asia

FOR SAGE 300

NORMING RESOURCE MANAGER · MANAGEMENT TOOLS

Manager Console

Every team document, a few clicks away

Managers and key users find, view and run inquiries on documents created in Resource Manager from one web screen, within the permissions you set.

HOW IT WORKS

Set access
View rights, by role

→

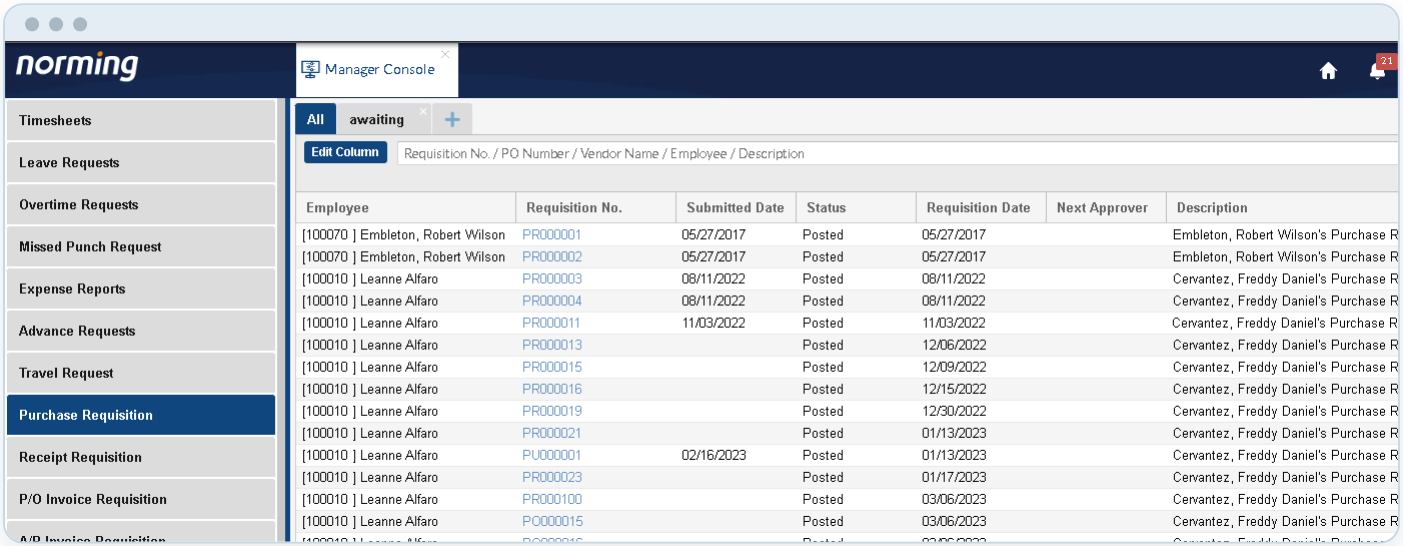

Search
Saved criteria and folders

→

View
Details and status

→

Export
To Excel for analysis

Manager Console document list

KEY CAPABILITIES

One web view
View all documents created in Resource Manager, not only your own.

Flexible permissions
Set view access by user, group or role, for each transaction type.

Scope by organisation
Limit what each user can see by division, region, department or cost centre.

Custom document lists
Add, remove and reorder columns, and group documents into folders.

Saved searches
Save your search criteria so frequent queries are one click away.

Export for analysis
Export query results to Excel for further analysis.

A view and inquiry tool across Resource Manager document types, such as purchase requests, expense claims and payment requests. Available on the web portal, not the mobile app.

See how it fits your business
