FOR SAGE 300

NORMING RESOURCE MANAGER · PROJECTS

Project

Plan projects on an online Gantt chart

Project managers schedule tasks on a web-based Gantt chart, or a list view, that the whole team sees in real time. Time and expenses booked to tasks in Sage 300 can be compared with the estimates.

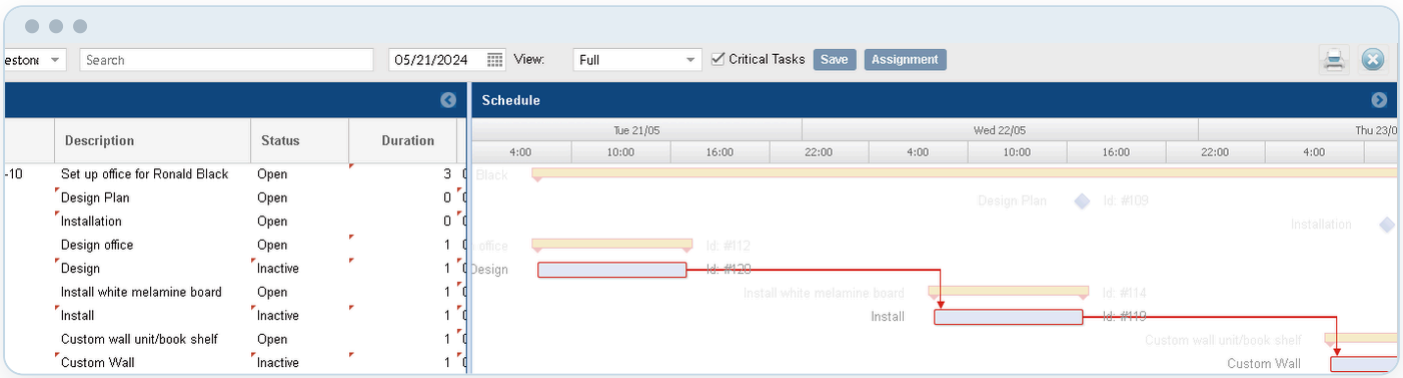

HOW IT WORKS

Set up
From a template or new

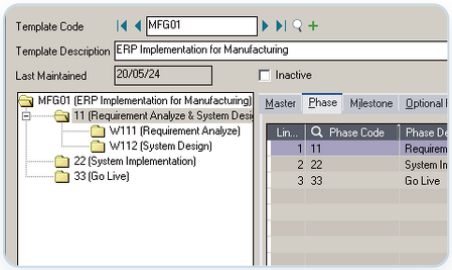

Schedule
Drag-and-drop Gantt

Assign
People to tasks

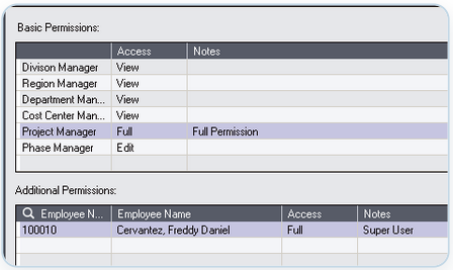

Track
Estimate against actual

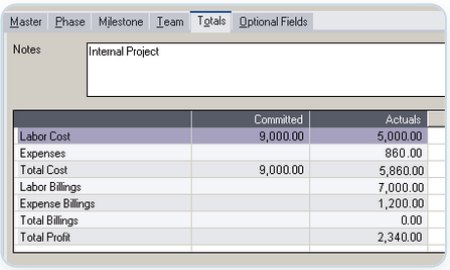

Online Gantt chart with critical tasks shown in red

Project templates
Save a project as a template and reuse it as often as needed.

Project and task permissions
Only the delegated project and task managers see the Gantt chart.

Estimate against actual
Time and expenses booked to tasks, compared with the estimate.

KEY CAPABILITIES

Drag-and-drop Gantt
Move tasks, change timelines and edit dependencies in the browser.

Critical path
See the tasks that directly affect the project deadline.

Gantt or list view
Open any project as a Gantt chart or a list, from any browser.

Milestones and progress
Maintain milestones, completion criteria and percentage of completion.

Needs the RM back end only. Entry on the web portal; not on the mobile app.

See how it fits your business
