FOR SAGE 300

TAIROX · APPLICATION SUITE

SOX User Management

Manage Sage 300 users and rights across companies

SOX User Management copies and removes Sage 300 users and permissions across companies, and gives auditors clear permission and password reports. Built for system administrators and finance controllers.

HOW IT WORKS

▸ Watch the demo

Sign on
ADMIN or authorised user

→

Pick companies
One company or many

→

Copy or remove
Users, rights and setup

→

Report
Save to Excel, check the log

KEY CAPABILITIES

Copy users and rights
Copy user A to user B, or all users from one company to another, in one or many companies.

Offboard in one step
Remove a user, or all users, from one company or from all selected companies.

Permissions Report
Users and their rights across many companies, with each user's security group per application.

User status reports
User Profiles, Locked Out Users, Disabled Users, Expiring Passwords and User Groups.

Password and security
Commonly Used Passwords, Passwords That Never Expire and Advanced Security Settings.

Desktop customisations
Lists custom folders, macros, programs and reports on the desktop, by user and company.

GOOD TO KNOW

Multi-company
Copy, remove and report across companies.

Controlled
Only ADMIN or authorised users make changes.

Change log
Each copy or remove is written to a log.

Excel export
Reports save to Excel, one sheet per company.

Supports Sage 300 2012 to 2026 with one install. Runs as a separate Windows program and uses a Sage 300 LanPak.
